

WINEGARD®

Sensar™ HV

Catch all of your favourite TV shows on your next RV adventure with the Winegard Sensar HV Antenna. This revolutionary bi-directional antenna receives both horizontal and vertical signals, thus picking up a wider range of free-to-air channels on your RV's TV. Made in the USA, this robust antenna receives analogue, SD and HD signals. Never miss out on the footy grand final again - enquire about a Winegard Sensar HV today!

BENEFITS AT A GLANCE

- Receives horizontal and vertical frequencies
- HD Ready
- Picks up a wider variety of free-to-air channels
- Can be retrofitted to older style existing Winegard Antennas or Antennatek Antennas
